PROFESSIONAL SUMMARY

Results-driven Full Stack Engineer with 3+ years of experience building scalable web applications, cross-platform mobile apps, and real-time IoT systems. Proficient across the entire development lifecycle — from crafting pixel-perfect React Native UIs to architecting high-performance Node.js/Fastify backends. Experienced in PostgreSQL optimization, RESTful API design, and cloud monitoring. Adept at collaborating with cross-functional teams and delivering production-ready solutions.

TECHNICAL SKILLS

Mobile: React Native, Flutter, Expo

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Fastify, Express.js, NestJS, Python, FastAPI

Auth & APIs: JWT, RESTful APIs, Firebase

Databases: PostgreSQL, MongoDB, MySQL

IoT & Real-Time: Real-Time APIs, Monitoring Dashboards, WebSockets

DevOps & Monitoring: Prometheus, Grafana, Git, GitHub, Postman

Design: Figma, UI/UX, Wireframing, Responsive Design

WORK EXPERIENCE

Full Stack Developer · [Asani.io](#)

Jul 2025 – Present

- Built and maintained a high-performance Fastify backend for the KWSC Unified App serving real-time water utility data
- Designed real-time IoT APIs and monitoring dashboards for live infrastructure tracking
- Optimized PostgreSQL queries, reducing API response times and improving overall system efficiency
- Integrated Prometheus & Grafana for production-grade system monitoring and alerting
- Collaborated with business stakeholders on product strategy, client demos, and technical requirement gathering

Full Stack Developer · [UpperCubes](#)

Jan 2024 – Jun 2025

- Developed Inventory, Dispatch & Hotel Management systems across both mobile (React Native) and web portals
- Built secure REST APIs with role-based authentication and fine-grained access control
- Designed optimized MongoDB schemas and improved backend efficiency through query restructuring

React Native Developer · [AG Consultraining](#)

Oct 2024 – Feb 2025

- Built and deployed 8 production mobile applications across Travel, eCommerce, and Education domains
- Delivered dedicated apps for Aligarh Institute and Nazeer Hussain University

React Native Developer & UI/UX Designer · [Trippy](#)

Sep 2023 – Aug 2024

- Developed 3 cross-platform travel applications and their corresponding admin dashboards
- Designed comprehensive UI systems and implemented scalable frontend architecture

Teacher Assistant – NAVTTC · [Aptech Metro Stargate](#)

Mar 2025 – Jun 2025

- Conducted hands-on sessions on React and backend fundamentals for NAVTTC cohort students
- Assisted in debugging, code reviews, and architectural understanding for junior developers

UI Designer · [Aetsm Soft](#)

Apr 2023 – May 2023

- Designed responsive UI mockups and interactive prototypes using Figma

EDUCATION

Diploma in Software Engineering

[Aptech Pakistan](#)

Aug 2022 – Feb 2026

Intermediate – Computer Software Engineering

[Technical Board SBTE](#)

Aug 2022 – Feb 2026
